CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of the City Council City of Willows Willows, California

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Willows, California (City), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

To the Honorable Mayor and Members of the City Council City of Willows Willows, California

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

To the Honorable Mayor and Members of the City Council City of Willows Willows, California

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, City Pension Plan, City OPEB Plan, and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

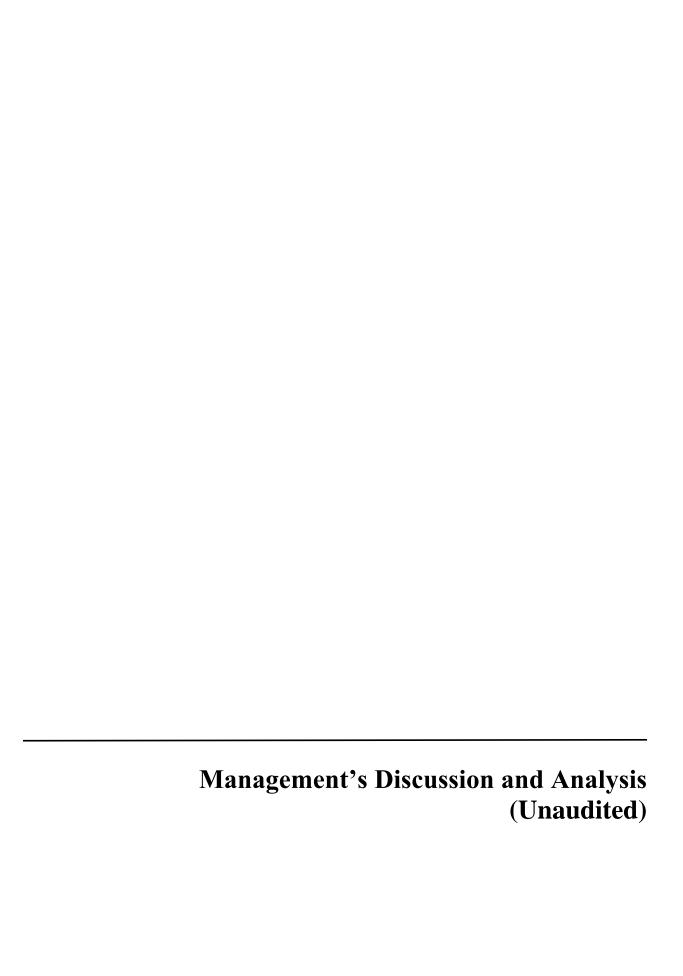

To the Honorable Mayor and Members of the City Council City of Willows Willows, California

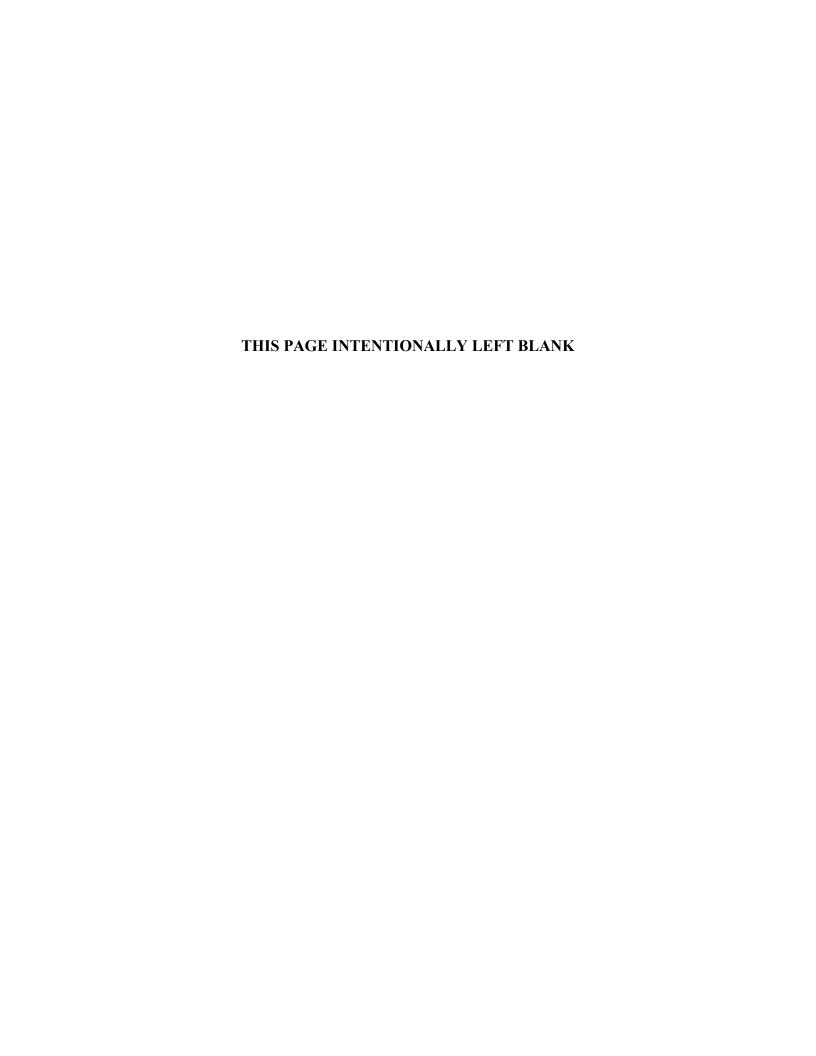

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 20, 2025, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

Smith & Newell CPAs

Yuba City, California March 20, 2025

INTRODUCTION

As management of the City of Willows (the City), we offer readers this discussion and analysis of the City's financial performance for the fiscal year ended June 30, 2024. Readers are encouraged to consider the information presented here in conjunction with additional information, which can be found in the City's financial statements that follow this discussion.

FINANCIAL HIGHLIGHTS

Government-Wide:

- The City's total net position (assets minus liabilities) decreased \$2,707,375 as of June 30, 2024. Governmental activities decreased the City's net position by \$3,058,743 and business-type activities increased the City's net position by \$351,368.
- Government-wide *governmental* revenues include program revenues of \$2,948,396 and general revenues of \$4,973,216 for a total of \$7,921,612.
- Government-wide *governmental* expenses were \$10,300,958 note: this amount includes the annual pension liability expenditure adjustments which typically vary year-to-year based on CalPERS activity.
- Government-wide *business-type* revenues include program revenues of \$1,881,528 and general revenues of \$189,950 for a total of \$2,071,478.
- Government-wide *business-type* expenses were \$2,362,174 note this amount also includes the annual pension liability expenditure adjustment(s) that typically vary from year-to-year based on CalPERS activity.

Fund Level:

- Governmental Fund balance decreased to \$11,070,682 in fiscal year (FY) 2023-24, down from \$11,500,380 in the prior year primarily due to the use of \$755,158 in reserves towards operations in the City's General Fund related to the cost increase for the public safety contract; offset by increases in other special revenue funds related to transportation (RSTP / Gas Tax) and receipt of the funding related to the Proposition 68 parks grant.
- Governmental Fund revenues were \$7,963,697 in FY 2023-24, slightly lower than the \$8,661,363 received in the prior fiscal year. This decrease can be primarily attributed prior-year one-time grants received in the General Fund towards fire and public works equipment and apparatus; offset by a reduction in both one-time transportation-related revenues and recognition of CARES Act funding used for an array of citywide programs.
- Governmental Fund expenditures were \$7,713,998 in FY 2023-24, significantly lower than the \$9,419,658 reported in the prior fiscal year mainly due to the prior-year expenditure of grant funds towards fire and public works equipment and apparatus; and the prior-year expenditure of transportation-related funding towards the Pacific Avenue and Lassen Street projects.

General Fund:

- General Fund revenues of \$5,823,027 were lower by \$445,481 from the prior fiscal year mainly due to the recognition of one-time grant-related revenues in FY 2022-23 used towards fire and public works apparatus.
- General Fund expenditures of \$6,949,669 represented a nominal decrease of \$103,798 over the prior fiscal year.
- The fund balance of the General Fund was \$1,227,953 as of June 30, 2024, compared to the fund balance of \$2,020,444 reported for FY 2022-23.

OVERVIEW OF THE FINANCIAL STATEMENTS

Government-Wide Financial Statements

The Government-Wide Financial Statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. These statements separate the City's activities into two areas:

Governmental Activities – these services are principally supported by taxes and intergovernmental revenues. Most of the City's basic services are considered governmental activities including public safety, community development, public works, parks and recreation, education and general administration.

Business-Type Activities – these services rely upon user fees and charges to help cover all or most of their costs. The City's water and wastewater systems are reported here.

Within the framework of these activities, a Statement of Net Position and a Statement of Activities report information about the City as a whole. These statements include all the assets and liabilities of the City (i.e., infrastructure and long-term debt) and use the accrual basis of accounting in which all the current year's revenues and expenses are taken into account regardless of when the cash is received or paid. The two statements can be generally described as follows:

The Statement of Net Position presents information on all of the City's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Willows is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Notably, these statements differ from the Fund Financial Statements in that they include all assets of the City (including infrastructure) and all liabilities (including long-term debt) and exclude certain interfund receivables, payables and other interfund activity as prescribed by GASB Statement No. 34. A reconciliation between the two is provided on pages 17 of this report.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Willows, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds in the City of Willows can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds - most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year-end that are available for spending. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. This information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and the governmental funds in the reconciliation on page 19.

Proprietary Funds — when the City charges customers for services it provides, whether outside customers or to other units of the City, these services are generally reported in proprietary funds. Proprietary funds provide the same type of information as shown in the government-wide financial statements (i.e., business-type activities), only in more detail. The City uses proprietary funds to account for its water and wastewater operations.

Notes to the Basic Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Supplemental Information - In addition to the basic financial statements and accompanying notes, this report also presents required supplemental information and supplemental information.

FINANCIAL ANALYSIS OF THE GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements provide long-term and short-term information about the City's overall financial situation. This analysis addresses the financial statements of the City as a whole.

Summary of Net Position Fiscal Years 2023-24 and 2022-23

		nmental vities		ss-Type vities	Total Activities

Net position								
Net investment in capital asset	13,189,034	13,245,581	(877,731)	(177,528)	12,311,303	13,068,053		
Restricted	9,831,088	10,021,708	-	-	9,831,088	10,021,708		
Unrestricted	(3,918,124)	(7,224,034)	4,380,077	4,031,242	461,953	(3,192,792)		
Total Net Position	\$ 19,101,998	\$ 16,043,255	\$ 3,502,346	\$ 3,853,714	\$ 22,604,344	\$ 19,896,969		

Net position represents the difference between the City's resources and its obligations. On June 30, 2024, the largest portion of the City's total net position, 65.7% (\$13,068,053), reflects net position invested in capital assets (the value of city-wide assets less any outstanding debt issued to purchase / construct assets). Restricted net position makes up the second largest component of net position (\$10,021,708) and represents the portion of net position that has external constraints placed on it by creditors, grantors, contributors, laws, or regulations of other governments, or through constitutional provisions or enabling legislation. Unrestricted net position of (\$3,192,792), a deficit, represents the remaining portion of net

position which essentially accounts for the net impact of non-restricted assets (current and other assets) ability to pay city-wide long-term debt and deferred liabilities (OPEB and Pension) required to be paid overtime.

Overall, the net position for the governmental portion of the City funds has decreased \$3,058,743 mainly due a one-time annual adjustment related to the CalPERS activity.

Restricted net position of \$10,021,708 represents resources subject to external restrictions as to how they may be used. The Governmental Activities unrestricted net position of (\$7,224,034) – a negative amount represents amounts that may be used to meet the City's ongoing obligations to its residents, businesses, customers, and creditors. This amount is negative in the Governmental Funds only due to the Pension Liability adjustment and debt service in the Governmental Fund Group (these are non-cash items long-term). The Business-type Activities unrestricted net position of \$4,031,242 represents amounts that may be used to meet the ongoing operations and capital replacement for the City's water and wastewater systems.

Governmental Activities:

The City's governmental activities decreased the City's net position by \$3,055,743. Revenues were \$7,921,612 which represented a decrease of \$781,836 or 9.0 percent over the prior fiscal year. This decrease can be primarily attributed to the one-time recognition of revenues in the General Fund during FY 2022-23 for Fire and Public Works apparatus and equipment and recognition of CARES Act funding. Governmental activities highlights include the following:

- Discretionary revenue sources including all taxes, franchise fees and interest and other revenues in the amount of \$4,973,216 represent 62.8 percent of the total governmental activity revenue of the City. This amount is down from the \$5,366,368 recognized in the prior fiscal year mainly due to one-time intergovernmental revenues received in the prior year and a timing issue related to the receipt of property tax payments.
- Charges for services, operating grants, and capital grants provided \$2,948,396 or 37.2 percent of the total governmental activity revenue of the City. This amount represents a decrease of \$388,684 from the prior fiscal year amount of \$3,337,080. One-time grants received in the prior fiscal year make up the majority of this decrease.

Business-Type Activities:

The City's business-type activities increased the City's net position by \$351,368. This increase is mainly due to the transfer in of funding from CARES Act revenues to close out the City's Water Enterprise. Revenues were \$2,071,478 which represents an increase of \$94,701, primarily due to increased collections of sewer use fees. Business type activities highlights include the following:

• Charges for services provided \$1,881,528 or 90.9 percent of the total business-type activities revenue of the City (these are rates charged to users of both the sewer and water enterprises).

FINANCIAL ANALYSIS OF THE FUND STATEMENTS

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The fund financial statements focus on individual parts of the City government, reporting the City's operation in more detail than the government-wide statements. The City's governmental funds provide information on near-term inflows, outflows, and balances of spendable resources. The City's governmental funds reported combined fund balance on June 30, 2024, of \$11,070,682. The General Fund decreased \$755,158 and other Governmental Funds increased by \$362,793. The General Fund decrease was mainly due to the need to use reserves for operating activities and the increase in the Glenn County public safety contract. The Other Governmental Funds increase of \$362,793 was primarily due to one-time grant receipts (Proposition 68 Parks Grant) and the recognition of CARES Act funding.

Analysis of the General Fund

The General Fund is the primary operating fund of the City. It accounts for revenues and expenditures associated with fire services, public works, engineering, planning, building inspections, finance, parks, city clerk, city attorney, and city administration, and a contract for police services.

General fund revenues totaled \$5,823,027 in fiscal year 2023-24, a decrease of \$445,481 over the prior fiscal year. This was primarily due to the prior year's receipt of one-time funding to purchase Fire and Public Works equipment and apparatus.

General fund expenditures totaled \$6,949,669 in fiscal year 2023-24, a decrease of \$103,798 from the prior fiscal year. This decrease was primarily related to the prior-year purchase of Fire and Public Works equipment and apparatus (as previously discussed).

At the end of fiscal year 2023-24, the fund balance for the City's General Fund was \$1,227,953, a decrease of \$792,491 from the prior fiscal year. The fund balance in the General Fund was comprised of \$200,497 which is non-spendable for long-term receivables and prepaid items; \$205,000 which is committed for contingencies and future capital; and \$822,456 which is unassigned. The unassigned portion of the fund balance in the General Fund decreased \$834,047 when compared to the unassigned balance of FY 2022-23.

Analysis of Major Proprietary Funds

Water

■ The Water Fund is financed and operated in a manner similar to that of a private business. The Fund's net position went from \$41,652 in fiscal year 2022-23 to \$661,142 in fiscal year 2023-24 representing an increase of \$619,490. The increase in net position was entirely related to the funding of a pipeline (capitalized expenditure) enabling the transfer of the water enterprise to Cal Water. Operating revenues were \$1,396 due to diminishing collections of water user fees. Operating expenses were \$23,970. The Fund's net investment in capital assets went from \$61,981 in fiscal year 2022-23 to \$663,055 in fiscal year 2023-24. The Fund ended the fiscal year with a negative unrestricted net position of (\$1,913). This fund is expected to be completely closed out in the coming fiscal year.

Wastewater

The Wastewater fund is financed and operated in a manner similar to that of a private business. The Fund's fiscal year 2022-23 net position of \$3,460,694 decreased \$268,122 in fiscal year 2023-24 to \$3,192,572. Operating revenues were \$1,880,200, a 1.4 percent increase over the prior fiscal year. Operating expenses were \$2,086,705, a 2.0 percent increase over the prior fiscal year mainly due recognition of applicable overhead costs and annual CalPERS adjustments related to the recognition of the net pension liability from CalPERS. The Fund's net investment in capital assets went from a negative (\$939,712) in fiscal year 2022-23 to a negative (\$840,583) in fiscal year 2023-24, recognizing the refunding of the USDA debt and issuance of new debt to upgrade the City's Sewer infrastructure. The Fund ended the fiscal year with an unrestricted net position of \$4,033,155.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

At the end of fiscal year 2023-24, the City had invested \$22.8 million (net of depreciation) in a broad range of capital assets, including fire equipment, buildings, park facilities, street and storm drainage improvements and water and wastewater facilities. Additional detailed information on the City's capital assets is presented Note 4 to the financial statements on pages 39 and 40.

The financial statements summarize the City's accounting policies regarding capital assets in Note 1 of the note disclosures. In general terms, the City capitalizes assets in governmental funds at the \$500 level. These capital assets are depreciated on a straight-line basis varied from 3 years to 75 years.

Long-Term Debt

At fiscal year-end, the City had \$16,713,725 in loans, bonds, leases payable, and compensated absences outstanding compared to \$17,705,059 outstanding on June 30, 2023. Governmental activities long-term debt decreased \$729,483 due to a decrease in capital lease and bonds payable offset by an increase in compensated absences obligations. Business-type activities long-term debt decreased \$261,851 mainly due to debt service payments made towards the wastewater bonds and payment on the CalPERS Pension Obligation Bonds. Additional detailed information on the City's long-term debt is presented Notes 7 and 8 to the financial statements on pages 41 through 44.

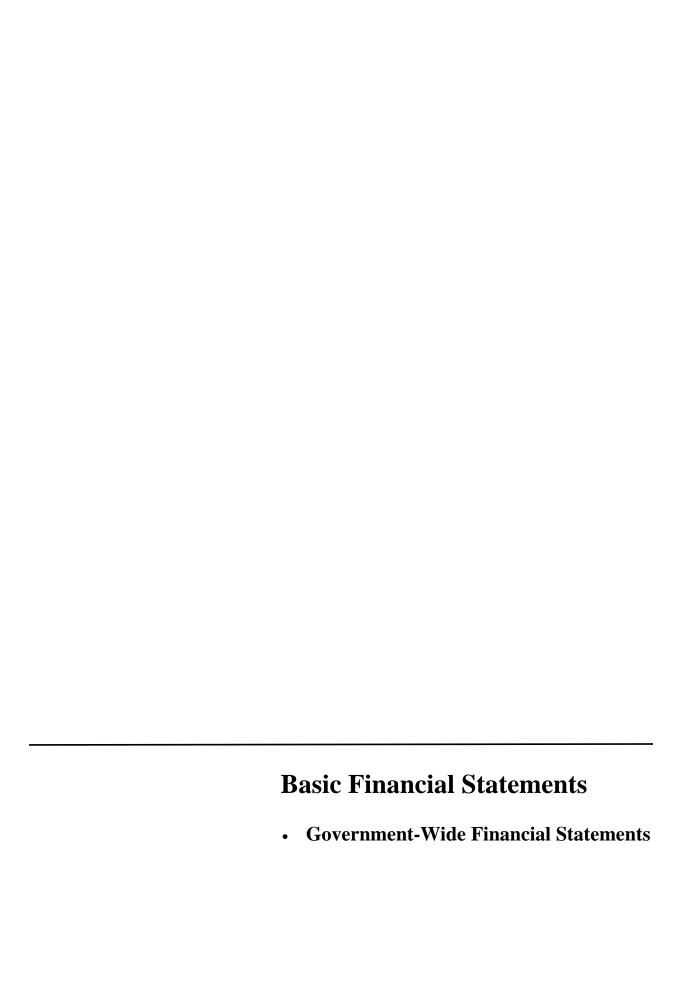

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

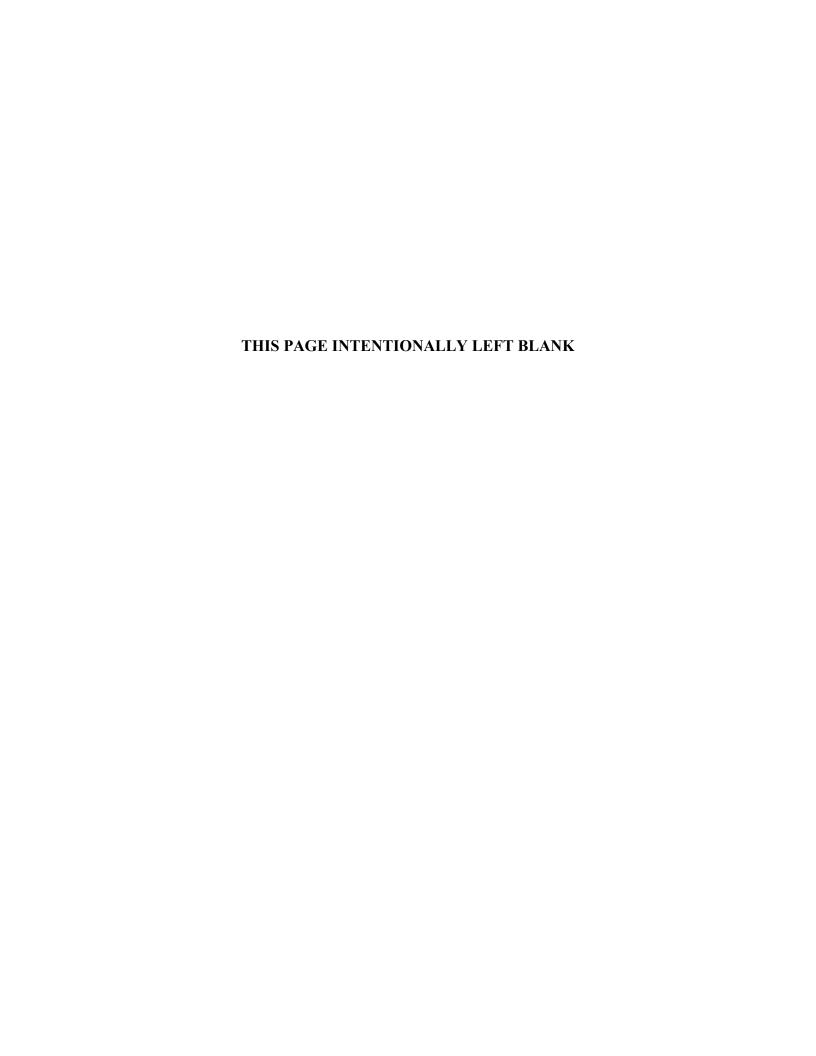

While the City has mostly recovered from the effects of the COVID-19 pandemic, management is cognizant of the recent increases in operations costs that could impact near- and long-term budgets. In November 2024, the City electorate passed a Transactions and Use Sales Tax measure that is expected to add approximately \$Costs for the 1.9 million annually to the General Fund revenue stream. This new revenue stream will offset ever-increasing costs associated with maintaining existing operations, including significant increases in public safety costs, which are expected to rise over the next several years. Staff will continue to monitor fiscal activity and make adjustment as appropriate.

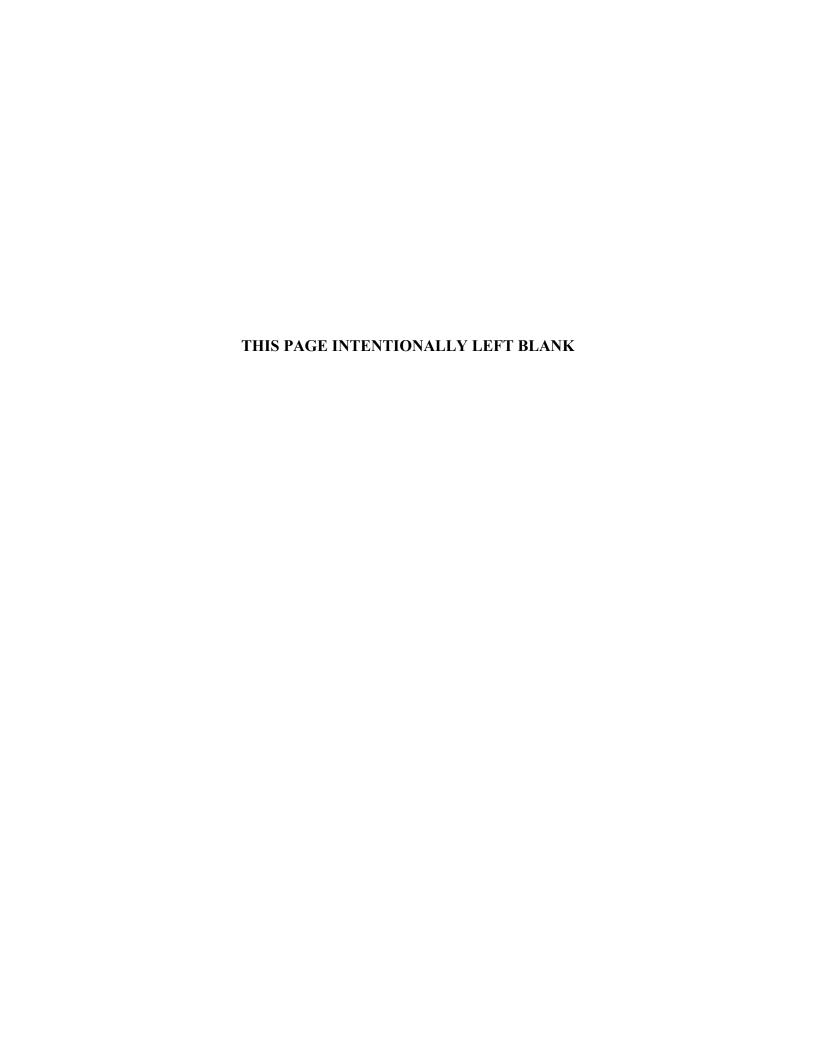

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any information provided in this report or request for additional financial information should be directed to:

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Government-Wide Statement of Activities - Governmental Activities For the Year Ended June 30, 2024

Net Change in Fund Balances - Total Governmental Funds	\$	(392,365)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Expenditures for capital outlay		265,392
Less current year depreciation		(435,083)
Some revenues reported in the Statement of Activities will not be collected for several months after the City's year end and do not provide current financial resources and therefore are not reported as revenues in the governmental funds.		
Change in unavailable revenues		(42,085)
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Principal retirements		766,975
Certain changes in deferred outflows and deferred inflows of resources reported in the Statement of Activities relate to long-term liabilities and are not reported in the governmental funds. Change in deferred outflows of resources related to pension and OPEB Change in deferred inflows of resources related to pension and OPEB	((3,856,134) 1,240,582
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.		
Change in compensated absences		(37,492)
Change in net pension liability		(532,584)
Change in total OPEB liability		(1,668)
Change in accrued interest on long-term debt		3,052
Change in Net Position of Governmental Activities	\$ ((3,021,410)

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Willows was incorporated in 1886, under the laws and regulations of the State of California. The City operates under a Council-Manager form of government and provides the following services: public safety, highways and streets, health and sanitation, culture and recreation, public improvements, planning and zoning, general administrative services, water and sewer.

Component Units

Generally accepted accounting principles require government financial statements to include the primary government and its component units. Component units of a governmental entity are legally separate entities for which the primary government is considered to be financially accountable and for which the nature and significance of their relationship with the primary government are such that exclusion would cause the combined financial statements to be misleading. The primary government is considered to be financially accountable if it appoints a majority of an organization's governing body and is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government.

Based on the application of the criteria set forth by the Governmental Accounting Standards Board, management has determined that there are no component units of the City.

Joint Agencies

The City is a participant in Northern California Cities Self-Insurance Fund (NCCSIF), the purpose of which is for member Cities to share in the administrative costs of providing liability and workers' compensation insurance. The NCCSIF is governed by a board of directors appointed by the member cities. Complete financial information can be obtained from the Program Administrator at, 2180 Harvard Street, Suite 460, Sacramento, CA 95815. The City is not financially accountable for this organization and therefore it is not a component unit under Statement Nos. 14, 39 and 61 of the Governmental Accounting Standards Board.

B. Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Position and Statement of Activities display information on all of the nonfiduciary activities of the City and its blended component units. These statements include the financial activities of the overall government, except fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Interfund services provided and used are not eliminated in the process of consolidation. These statements distinguish between the governmental and business-type activities of the City. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Presentation (Continued)

Government-Wide Financial Statements (Continued)

The Statement of Activities presents a comparison between direct expenses and program revenues for each different identifiable activity of the City's business-type activities and each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and; therefore, are clearly identifiable to a particular function. Program revenues include 1) charges paid by the recipients of goods and services offered by the program, 2) operating grants and contributions, and 3) capital grants and contributions. Taxes and other items not properly included among program revenues are presented instead as general revenues.

Fund Financial Statements

The fund financial statements provide information about the City's funds. Funds are organized into two major categories: governmental and proprietary. The emphasis is placed on major funds within the governmental and proprietary categories; each is displayed in a separate column. All remaining governmental and proprietary funds are separately aggregated and reported as nonmajor funds.

The City reports the following major governmental funds:

- The General fund is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the City that are not accounted for through other funds. For the City, the General fund includes such activities as public safety, planning and zoning, general administrative services and public works.
- The CDBG OTC fund is a special revenue fund used to account for housing revenues and expenditures. Funding comes primarily from grant revenues.
- The CDGB Home Grant fund is a special revenue fund used to account for housing revenues and expenditures. Funding comes primarily from grant revenues.
- The COVID-19 Fisc Rec fund is a special revenue fund used to account for coronavirus relief revenues and expenditures.

The City reports the following major proprietary funds:

- The Sewer Maintenance fund is an enterprise fund used to account for activity related to providing customers with sewer service and billing provided by the City.
- The Sewer Construction fund is an enterprise fund used to account for activity related to capital projects related to the sewer system.
- The Water fund is an enterprise fund used to account for activity related to providing customers with water service and billing provided by the City.

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting and Measurement Focus

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales tax, grants, entitlements, and donations. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from sales tax are recognized when the underlying transactions take place. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property and sales taxes, interest, certain state and federal grants and charges for services are considered susceptible to accrual and are accrued when their receipt occurs within 60 days after the end of the fiscal year. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to claims and judgments are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in the various functions of the governmental funds. Proceeds of governmental long-term debt and acquisitions under capital leases are reported as other financing sources.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Non-Current Governmental Asset/Liabilities

Non-current governmental assets and liabilities, such as capital assets and long-term liabilities, are reported in the governmental activities column in the government-wide Statement of Net Position.

E. Cash and Cash Equivalents

For purposes of the accompanying Statement of Cash Flows, the City considers all highly liquid investments with a maturity of three months or less when purchased, including amounts held in the City's investment pool, to be cash and cash equivalents.

F. Investments

The City pools cash and investments of all funds except cash and investments with fiscal agents. Each fund's share in this pool is displayed in the accompanying financial statements as cash and investments.

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Investments (Continued)

Investment transactions are recorded on the trade date. The fair value of investments is determined annually. Investments in nonparticipating interest-earning investment contracts are reported at cost; short-term investments are reported at amortized cost, investments in the State of California Local Agency Investment Fund, an external pool, are reported at amortized cost which approximates fair value, and the fair value of all other investments are obtained by using quotations obtained from independent published sources or by the safekeeping institution. The fair value represents the amount the City could reasonably expect to receive for an investment in a current sale between a willing buyer and seller.

Income from pooled investments is allocated to the individual funds based on the fund or participant's average daily cash balance at quarter end in relation to the total pool investments. Income from non-pooled investments is recorded based on the specific investments held by the fund.

G. Receivables

Receivables for governmental activities consist mainly of accounts, interest, taxes and amounts due from other governments. Management believes its receivables are fully collectible and, accordingly, no allowance for doubtful accounts is required.

Receivables for business-type activities consist mainly of user fees and interest. Management believes its receivables are fully collectible and, accordingly, no allowance for doubtful accounts is required.

H. Other Assets

Inventory

Governmental fund inventories are recorded as expenditures at the time the inventory is purchased rather than when consumed. Records are not maintained of inventory and supplies on hand, although these amounts are not considered material.

Prepaid Items

Payments made for services that will benefit periods beyond June 30, 2024, are recorded as prepaid costs under both the accrual and modified accrual basis of accounting. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

I. Loans Receivable

A total of \$6,927,582 was recorded as loans receivable at June 30, 2024. These represent low interest notes and related accrued interest to finance multi-family and single-family construction and rehabilitation projects and homebuyer assistance for low-income families. Loan terms are 15 to 55 years with an interest rate at 0 to 5 percent. The primary source of funding for these loans comes from grants from the federal Community Development Block Grant (CDBG) program and Home Investment Partnerships (HOME) program. The CDBG and HOME grants contain monitoring requirements to ensure grant compliance. These requirements are reflected in the loan agreements.

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Capital Assets

Capital assets, including public domain (infrastructure such as roads, bridges, sidewalks and sewer), are defined by the City as an asset with a cost greater than \$500 and a useful life of more than one year. Capital assets are recorded at historical cost or estimated historical cost if actual historical cost is unavailable. Contributed capital assets are recorded at their fair value at the date of donation.

Capital assets used in operations are depreciated or amortized using the straight-line method over the assets' estimated useful lives in the government-wide financial statements. The range of estimated useful lives by type of asset is as follows:

<u>Depreciable Asset</u>	Estimated Lives
Equipment	3 to 25 years
Structures and improvements	5 to 50 years
Infrastructure	20 to 75 years
Intangibles (computer software)	5 to 10 years

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

K. Property Tax

Glenn County assesses properties, bills, collects, and distributes property taxes to the City. The County remits the entire amount levied and handles all delinquencies, retaining interest and penalties.

Property taxes are levied on a fiscal year (July 1 - June 30). The secured property tax assessments are due on November 1 and February 1 and become delinquent after December 10 and April 10, respectively. The unsecured property tax assessments are due on August 1 and become delinquent after August 31. Property taxes become a lien on the property effective January 1 of the preceding year.

The City recognizes property taxes when the individual installments are due provided they are collected within 60 days after year-end.

L. Interfund Transactions

Interfund transactions are reflected as either loans, services provided or used, reimbursements, or transfers.

Loans reported as receivables and payables are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans) as appropriate and are subject to elimination upon consolidation. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances". Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance account in applicable governmental funds to indicate that they are not in spendable form.

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Interfund Transactions (Continued)

Services provided or used, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. These services provide information on the net cost of each government function and therefore are not eliminated in the process of preparing the government-wide statement of activities.

Reimbursements occur when the funds responsible for particular expenditures or expenses repay the funds that initially paid for them. Such reimbursements are reflected as expenditures or expenses in the reimbursing fund and reductions to expenditures or expenses in the reimbursed fund.

All other interfund transactions are treated as transfers. Transfers between funds are netted as part of the reconciliation to the government-wide presentation.

M. Unearned Revenue

Under the accrual and modified accrual basis of accounting, revenue may be recognized only when it is earned. When assets are recognized in connection with a transaction before the earnings process is complete, those assets are offset by a corresponding liability, unearned revenue.

N. Compensated Absences

It is the City's policy to permit employees to accumulate a limited amount of earned but unused vacation leave and sick leave. In the government-wide financial statements the accrued compensated absences is recorded as an expense and related liability, with the current portion estimated based on historical trends. In the governmental fund financial statements, the expenditures and liabilities related to those obligations are recognized only when they mature. In the proprietary funds the accrued compensated absences is recorded as an expense and related liability in the year earned. The City includes its share of social security and medicare taxes payable on behalf of the employees in the accrual for compensated absences.

O. Pension

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pension, and pension expense, information about the fiduciary net position of the City's California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date June 30, 2022 Measurement Date June 30, 2023

Measurement Period June 30, 2022 to June 30, 2023

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

P. Other Postemployment Benefits (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City's plan (OPEB Plan) and additions to/deductions from the OPEB Plans' fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation DateJuly 1, 2022Measurement DateJune 30, 2024

Measurement Period July 1, 2023 to June 30, 2024

Q. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. The City has two items that qualify for reporting in this category. These items relate to the outflows from changes in the net pension liability and total OPEB liability and are reportable on the Statement of Net Position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The City has two items which qualify for reporting in this category. These items relate to the inflows from changes in the net pension liability and total OPEB liability and are reportable on the Statement of Net Position.

R. Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

S. Implementation of Governmental Accounting Standards Board (GASB) Statements

The following Governmental Accounting Standards Board (GASB) Statements have been implemented, if applicable, in the current financial statements.

Statement No. 99, Omnibus 2022. This statement will enhance comparability in the application of accounting and financial reporting requirements and will improve the consistency of authoritative literature. Consistent authoritative literature enables governments and other stakeholders to more easily locate and apply the correct accounting and financial reporting provisions, which improves the consistency with which such provisions are applied. The comparability of financial statements also will improve as a result of this Statement. Better consistency and comparability improve the usefulness of information for users of state and local government financial statements.

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

S. Implementation of Governmental Accounting Standards Board (GASB) Statements (Continued)

Statement No. 100, Accounting Changes and Error Corrections. The requirements of this Statement will improve the clarity of the accounting and financial reporting requirements for accounting changes and error corrections, which will result in greater consistency in application in practice. In turn, more understandable, reliable, relevant, consistent, and comparable information will be provided to financial statement users for making decisions or assessing accountability. In addition, the display and note disclosure requirements will result in more consistent, decision useful, understandable, and comprehensive information for users about accounting changes and error corrections.

T. Future Accounting Pronouncements

The following GASB Statements will be implemented, if applicable, in future financial statements:

- Statement No. 101 "Compensated Absences" The requirements of this statement are effective for fiscal years beginning after December 15, 2023. (FY 24/25)
- Statement No. 102 "Certain Risk Disclosures" The requirements of this statement are effective for fiscal years beginning after June 15, 2024. (FY 24/25)
- Statement No. 103 "Financial Reporting Model Improvements" The requirements of this statement are effective for fiscal years beginning after June 15, 2025. (FY 25/26)

NOTE 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Restatement of Net Position/Fund Balance

Adjustments resulting from errors or a change to comply with provisions of the accounting standards are treated as adjustments to prior periods. Accordingly, the City reports these changes as restatements of beginning net position/fund balance. During the current year the City reported a prior period adjustment to correct a prior year understatement of other liabilities.

The impact of the restatement on the net position of the government-wide financial statements as previously reported is presented below:

	Ac and o	porting Units Affected by djustments to Restatements f Beginning Balances — overnmental Activities
Net Position, June 30, 2023 as previously reported	\$	19,101,998
Adjustment associated with:		
Correction of prior year understatement of other liabilities	_(37,333)
Total Adjustments		37,333)
Net Position, July 1, 2023 as restated	\$	19,064,665

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

A. Restatement of Net Position/Fund Balance (Continued)

The impact of the restatement on the fund balance of the fund financial statements as previously reported is presented below:

	General Fund		
Fund Balance, June 30, 2023 as previously reported	\$	2,020,444	
Adjustment associated with: Correction of prior year understatement of other liabilities		37,333)	
Total Adjustments	(37,333)	
Fund Balance, July 1, 2023 as restated	\$	1,983,111	

B. Deficit Fund Balance

The following non-major governmental funds had deficit fund balances at June 30, 2024:

Gas Tax 2106	\$ 4,341
Recreation Reimb	1,395
Clean California Grant	7,315
Home PI	4,469
USDA RDBG Grant	2,767

Some of these deficits may be eliminated in the future through grant revenues. Certain amounts of these deficits will ultimately become the responsibility of the General fund.

NOTE 3: CASH AND INVESTMENTS

A. Financial Statement Presentation

As of June 30, 2024, the City's cash and investments are reported in the financial statements as follows:

Governmental activities	\$ 4,296,966
Business-type activities	 5,041,310
Total Cash and Investments	\$ 9,338,276

s of June 30, 2024, the City's cash and investments consisted of the follow	ing:	
Cash:		
Cash on hand	\$	319
Deposits (less outstanding checks)		3,412,505
Deposits with fiscal agent		5,608,840
Total Cash		9,021,664
Investments:		
LAIF		316,612
Total Investments		316,612
Total Cash and Investments	<u>\$</u>	9,338,276

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 3: CASH AND INVESTMENTS (CONTINUED)

B. Cash

At year end, the carrying amount of the City's cash deposits (including amounts in checking, savings, and money market accounts) was \$9,021,345 and the bank balance was \$9,095,779. The difference between the bank balance and the carrying amount represents outstanding checks and deposits in transit. In addition, the City had cash on hand of \$319.

Custodial Credit Risk for Deposits - Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover its deposits or collateral securities that are in the possession of an outside party. The City's investment policy requires that deposits in banks must meet the requirements of the California Government Code. Under this code, interest bearing deposits of more than \$250,000 must be collateralized at 105 percent to 150 percent of the value of the deposit to guarantee the safety of the public funds. The first \$250,000 of the City's deposits are insured by the Federal Deposit Insurance Corporation (FDIC). Deposits of more than the \$250,000 insured amount are collateralized. The City's investment policy does not further limit its deposits.

C. Investments

The City has an investment policy, the purpose of which is to establish guidelines for the prudent investment of the City's funds, and outline the policies for maximizing the efficiency of the City's cash management program. The ultimate goal is to enhance the economic status of the City while protecting its pooled investments.

The investment policy provides the basis for the management of a prudent, conservative investment program. Funds are invested to provide the maximum security of principal with secondary emphasis on achieving the highest return, while meeting daily cash flow needs. All investments are made in accordance with the Government Code and, in general, the investment policy is more restrictive than state law.

Under the provisions of the City's investment policy and the California Government Code, the City may invest or deposit in the following:

Securities of the U.S. Government and its Agencies
Local Agency Investment Fund (State Pool) Demand Deposits (LAIF)
Certificates of Deposit
Bankers' Acceptances
Commercial Paper
Passbook Savings Accounts
Negotiable Certificates of Deposit
Medium-Term Corporate Notes

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 3: CASH AND INVESTMENTS (CONTINUED)

C. Investments (Continued)

Fair Value of Investments - The City measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy as follows:

Level 1: Quoted prices for identical investments in active markets; Level 2: Observable inputs other than quoted market prices; and,

Level 3: Unobservable inputs

The City's position in external investment pools is in itself regarded as a type of investment and looking through to the underlying investments of the pool is not appropriate. Therefore, the City's investment in external investment pools is not recognized in the three-tiered fair value hierarchy described above.

At June 30, 2024, the City had the following recurring fair value measurements:

		Fair Value Measurements Using			
Investment Type	Fair Value	Level 1	Level 3		
Investments by Fair Value Level					
None	<u>\$</u> _	<u>\$</u> -	\$ -	\$ -	
Total Investments Measured at Fair Value	-	<u>\$ -</u>	\$ -	\$ -	
Investments in External Investment Pools					
LAIF	316,612				
Total Investments	<u>\$ 316,612</u>				

Interest Rate Risk - Interest rate risk is the risk of loss due to the fair value of an investment falling due to interest rates rising. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. To limit the exposure to fair value losses resulting from increases in interest rates, the City's investment policy limits investment maturities to a term appropriate to the need for funds so as to permit the City to meet all projected obligations. Any investments that mature more than five years from the date of purchase cannot occur without prior approval of the City Council.

As of June 30, 2024, the City had the following investments, all of which had a maturity of 5 years or less:

			Maturities		
Investment Type	Interest Rates	0-1 year	1-5 years	Fair Value	Average Maturity (Years)
LAIF	Variable	\$ 316,612	<u>\$ -</u>	\$ 316,612	
Total Investments		\$ 316,612	\$ -	\$ 316,612	-

Credit Risk - Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City's investment policy sets specific parameters by type of investment to be met at the time of purchase. As of June 30, 2024, the City's investments were all held in LAIF, which is not rated by a nationally recognized statistical rating organization.

CITY OF WILLOWS Notes to Basic Financial Statements

For the Year Ended June 30, 2024

NOTE 3: CASH AND INVESTMENTS (CONTINUED)

C. Investments (Continued)

Custodial Credit Risk - Custodial credit risk for investments is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover its deposits or collateral securities that are in the possession of an outside party. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investments in securities through the use of mutual funds or government investment pools.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer of securities. When investments are concentrated in one issuer, this concentration presents a heightened risk of potential loss. The City's investment policy contains limitations on the amount that can be invested in any one issuer. As of June 30, 2024, all investments of the City were in LAIF, which contains a diversification of investments.

D. Investment in External Investment Pool

The City of Willows maintains an investment in the State of California Local Agency Investment Fund (LAIF), managed by the State Treasurer. This fund is not registered with the Securities and Exchange Commission as an investment company, but is required to invest according to California State Code. The Local Investment Advisory Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by State Statute. At June 30, 2024, the City's investment in LAIF valued at amortized cost was \$316,612 and is the same as the value of the pool shares. There are no restrictions on withdrawal of funds. The total amount invested by all public agencies in LAIF on that day was \$178.3 billion. Of that amount, 97.00 percent is invested in non-derivative financial products and 3.00 percent in structured notes and asset-backed securities.

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 4: CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2024, was as follows:

	Balance July 1, 2023	Additions	Transfers/ Retirements	Balance June 30, 2024
Governmental Activities Capital Assets, Not Being Depreciated Construction in progress	\$ 1,869,181	\$ 38,883	(\$ 1,824,215)	\$ 83,849

Construction in Progress

Construction in progress for governmental activities related primarily to work performed on City street improvement projects.

Construction in progress for business-type activities is related primarily to work performed on the Sycamore Street Lift Station.

NOTE 5: INTERFUND TRANSACTIONS

Due From/To Other Funds

During the course of operations, transactions occur between funds to account for goods received or services rendered. These receivables and payables are classified as due from or due to other funds. In addition, when funds overdraw their share of pooled cash, the receivables and payables are also classified as due from or due to other funds.

The following are due from and due to balances as of June 30, 2024:

		ue From her Funds	Due To <u>her Funds</u>
General fund	\$	101,983	\$ 100.909
Nonmajor governmental funds Fiduciary funds			 100,898 1,085
Total	<u>\$</u>	101,983	\$ 101,983

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 5: INTERFUND TRANSACTIONS (CONTINUED)

Transfers

Transfers are indicative of funding for capital projects, lease payments or debt service, reimbursement of various City operations and re-allocations of special revenues. The following are the interfund transfer balances as of June 30, 2024:

	<u></u>	Transfers <u>In</u>		
General fund	\$	371,484	\$	_
COVID-19 Fisc Rec		-		765,243
Nonmajor governmental funds		402,025		650,330
Water fund		642,064		
Total	\$	1,415,573	\$ 1.	,415,573

NOTE 6: UNEARNED REVENUES

At June 30, 2024, components of unearned revenues were as follows:

	Unearned
COVID-19 Fisc Rec	
Funds received in advance	<u>\$ 320,402</u>
Total	\$ 320,402

NOTE 7: LONG-TERM LIABILITIES

The following is a summary of changes in long-term liabilities for the year ended June 30, 2024:

		Balance			1	Adjustments/		Balance		Amounts ue Within
Type of Indebtedness	Jı	ıly 1, 2023	_	Additions	_	Retirements	Ju	ne 30, 2024	_(One Year

Compensated absences are generally liquidated by the fund where the accrued liability occurred. The financed purchase agreements are liquidated by payments made by the departments financing the equipment.

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 7: LONG-TERM LIABILITIES (CONTINUED)

Individual issues of debt payable outstanding at June 30, 2024, are as follows:

Gov	ernm	ental	Act	tivities	

•					
1	\cap	я	n	C	•

Commercial Bank Loan, issued November 1, 2019, in the amount of \$1,400,000, due in annual installments of \$86,027 to \$152,076, with an interest rate of 3.32%, and maturity on May 1, 2026. The City relinquished its rights of immunity from legal proceedings on the grounds of sovereignty in exchange for the proceeds of this loan.

253,906

Total Loans

253,906

Pension Obligation Bonds:

Taxable Pension Obligation Bonds, series 2021, issued May 13, 2021, in the amount of \$8,510,000, due in annual installments of \$525,000 to \$1,965,000, with an interest rate of 0.62% to 3.42%, and a maturity date on August 1, 2040. The bonds were used for the purposes of (a) refinancing the issuer's outstanding "side fund" obligations in respect of retired miscellaneous employees to the California Public Employees' Retirement System and (b) paying the costs associated with the issuance of the bonds.

Financed Purchase Agreements

The City has entered into certain financed purchase agreements under which the related equipment will become the property of the City when all terms of the agreements are met.

		Present Value
		of Remaining
	Stated	Payments at
	Interest Rate	June 30, 2024
Governmental activities	2.576%	<u>\$ 4,361</u>
Total		<u>\$ 4,361</u>

Equipment and related accumulated depreciation under financed purchase agreements are as follows:

	Governmental Activities
Equipment Less: accumulated depreciation	\$ 501,423 (<u>83,571</u>)
Net Value	<u>\$ 417,852</u>

As of June 30, 2024, financed purchase agreements annual amortization is as follows:

Year Ended June 30	Governmental Activities
2025	<u>\$ 4,418</u>
Total Requirements Less: interest	4,418 (<u>57</u>)
Present Value of Remaining Payments	<u>\$ 4,361</u>

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 9: NET POSITION

The government-wide and proprietary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

- Net investment in capital assets consists of capital assets including restricted capital assets, net
 of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages,
 notes or other borrowings that are attributable to the acquisition, construction or improvement of
 those assets.
- **Restricted net position** consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- **Unrestricted net position** all other net position that does not meet the definition of "restricted" or "net investment in capital assets".

Net Position Restricted by Enabling Legislation

The government-wide Statement of Net Position reports \$10,021,708 of restricted net position, of which \$2,630,843 is restricted by enabling legislation.

Net Position Flow Assumption

When a government funds outlays for a particular purpose from both restricted and unrestricted resources, a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted net position are available, it is considered that restricted resources are used first, followed by the unrestricted resources.

NOTE 10: FUND BALANCES

As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. Fund balances for governmental funds can be made up of the following:

- Nonspendable fund balance amounts that cannot be spent because they are either (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories and prepaid amounts.
- **Restricted fund balance** amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed fund balance amounts that can only be used for the specific purposes determined by formal action of the City's highest level of decision-making authority. The City Council is the highest level of decision-making authority for the City that can, by adoption of an ordinance, commit fund balance. Once adopted, the limitation imposed remains in place until a similar action is taken to remove or revise the limitation. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 10: FUND BALANCES (CONTINUED)

- **Assigned fund balance** amounts that are constrained by the City's intent to be used for specific purposes. The intent can be established at either the highest level of decision-making authority, or by a body or an official designated for that purpose.
- Unassigned fund balance the residual classification for the City's General fund that includes all amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The fund balances for all major and nonmajor governmental funds as of June 30, 2024, were distributed as follows:

	General Fund	CDBG OTC	CDBG HOME Grant	COVID-19 Fisc Rec	Other Governmental Funds	Totals
Nonspendable:

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 10: FUND BALANCES (CONTINUED)

Fund Balance Flow Assumption

When a government funds outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance), a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted fund balance are available, it is considered that restricted fund balance is depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policy

The City Council has not adopted a fund balance policy for financial statement reporting. The policy establishes procedures for reporting fund balance classifications, establishes prudent reserve requirements and establishes a hierarchy of fund balance expenditures.

NOTE 11: PENSION PLAN

A. General Information about the Pension Plan

All qualified permanent and probationary employees are eligible to participate in the City's separate Safety police, Safety fire, and Miscellaneous (all other) Employee Pension Plan, a cost-sharing multiple employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plan are established by State statute and City resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Effective January 1, 2013, the City added retirement tiers for the Miscellaneous and Safety Rate Tiers for new employees as required under the Public Employee Pension Reform Act (PEPRA). Classic employees are generally defined as employees who have been a member of any public retirement system who have had less than a six-month break in service. Applicable new hires to the City defined as classic employees as determined by PERS will be subject to the non-PEPRA plan. New non-classic employees hired on or after January 1, 2013 will be subject to new, lower pension formulas, caps on pensionable income levels and new definitions of pensionable income. In addition, new non-classic employees will be required to contribute half of the total normal cost of the pension benefit unless impaired by an existing Memorandum of Understanding. The cumulative effect of these PEPRA changes will ultimately reduce the City's retirement costs.

Summary of Rate Tiers and Eligible Participants

Open for New Enrollment

Miscellaneous PEPRA Miscellaneous members hired on or after January 1, 2013
Safety Police PEPRA Safety police members hired on or after January 1, 2013
Safety Fire PEPRA Safety fire members hired on or after January 1, 2013

Closed to New Enrollment

Miscellaneous Miscellaneous members hired before January 1, 2013
Safety Police Safety police members hired before January 1, 2013
Safety Fire Safety fire members hired before January 1, 2013

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 11: PENSION PLAN (CONTINUED)

A. General Information about the Pension Plan (Continued)

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 (age 52 for Miscellaneous Plan Members if membership date is on or after January 1, 2013) with statutorily reduced benefits. Retirement benefits are paid monthly for life. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

Each Rate Tier's specific provisions and benefits in effect at June 30, 2024, are summarized as follows:

			Monthly Benefits
	Benefit	Retirement	as a % of
	<u>Formula</u>	Age	Eligible Compensation
Miscellaneous	3.0% @ 60	50-60	2.000% to 3.000%
Miscellaneous PEPRA	2.0% @ 62	52-67	1.000% to 2.500%
Safety	3.0% @ 50	50	3.000%
Safety Police PEPRA	2.7% @ 57	50-57	2.000% to 2.700%
Safety Fire PEPRA	2.7% @ 57	50-57	2.000% to 2.700%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for all Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

	Employer	Employee	Employer Paid
	Contribution	Contribution	Member
	Rates	Rates	Contribution Rates
Miscellaneous	14.530%	8.000%	0.000%
Miscellaneous PEPRA	7.470%	6.750%	0.000%
Safety	22.470%	9.000%	0.000%
Safety Police PEPRA	0.000%	11.500%	0.000%
Safety Fire PEPRA	12.780%	13.000%	0.000%

For the year ended June 30, 2024, the contributions recognized as part of pension expense were as follows:

Contribut	ions-Employer		
\$	80,048 49,008	\$	-
	<u>Contribut</u>	Contributions-Employer \$ 80,048 49,008	\$ 80,048 \$

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 11: PENSION PLAN (CONTINUED)

B. Pension Liability, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pension

The City's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability is measured as of June 30, 2023, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2022 rolled forward to June 30, 2023 using standard update procedures. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The City's proportionate share of the net pension liability for the Plan as of June 30, 2022 and 2023 was as follows:

	Proportion	Proportion Proportion	
	June 30, 2022	June 30, 2023	Increase (Decrease)
Miscellaneous	0.007173%	0.011195%	0.004022%
Safety	0.007221%	0.011413%	0.004192%

As of June 30, 2024, the City reported a net pension liability for its proportionate share of the net pension liability of the Plan as follows:

Duamantianata

	Share of Net Pension Liability (Asset)		
Miscellaneous	\$ 559,818		
Safety	853,140		
Total Net Pension Liability	<u>\$ 1,412,958</u>		

For the year ended June 30, 2024, the City recognized pension expense of \$3,572,144. At June 30, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Pension contributions subsequent to the measurement date	\$	132,413	\$	-
Change of assumptions		83,589		-
Difference between expected and actual experience		91,235	(9,798)
Difference between projected and actual earnings on				
pension plan investments		207,392		-
Difference between City contributions and proportionate				
share of contributions		-	(1,692,602)
Adjustment due to differences in proportions	-	1,877,830	(<u>1,240,550</u>)
Total	\$	2,392,459	(<u>\$</u>	<u>2,942,950</u>)

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 11: PENSION PLAN (CONTINUED)

B. Pension Liability, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pension (Continued)

\$132,413 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized as pension expense as follows:

Year Ended June 30		
2025	(\$	920,045)
2026		251,335
2027	(20,059)
2028		5,865
Thereafter		<u> </u>
Total	(<u>\$</u>	682,904)

Actuarial Assumptions

The total pension liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date June 30, 2022 Measurement Date June 30, 2023

Actuarial Cost Method Entry-Age Normal Cost Method

Actuarial Assumptions:

Discount Rate 6.90% Investment Rate of Return 6.90% Inflation 2.30%

Salary Increases Varies by entry-age and service

Post-Retirement Benefit Increase Derived using CalPERS' membership data for all

funds. Contract COLA up to 2.30% until Purchasing Power Protection Allowance Floor on

Purchasing Power applies

The mortality table used was developed based on CalPERS-specific data. The rates incorporate Generational Mortality to capture ongoing mortality improvement using 80 percent of Scale MP-2020 published by the Society of Actuaries. For more details, please refer to the CalPERS 2021 experience study that can be found on the CalPERS website.

Long-Term Expected Rate of Return

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and, combined with risk estimates, are used to project compound (geometric) returns over the long-term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return.

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 11: PENSION PLAN (CONTINUED)

B. Pension Liability, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pension (Continued)

Long-Term Expected Rate of Return (Continued)

The expected real rates of return by asset class are as follows:

Asset Class	Assumed Asset <u>Allocation</u>		eal Return ears 1-10 (1, 2)
Global Equity – Cap-Weighted	30.0%		4.54%
Global Equity – Non-Cap-Weighted	12.0%		3.84%
Private Equity	13.0%		7.28%
Treasury	5.0%		0.27%
Mortgage-backed Securities	5.0%		0.50%
Investment Grade Corporates	10.0%		1.56%
High Yield	5.0%		2.27%
Emerging Market Debt	5.0%		2.48%
Private Debt	5.0%		3.57%
Real Assets	15.0%		3.21%
Leverage	(5.0%)	(0.59%)
Total	<u>100.0%</u>		

- (1) An expected price inflation of 2.30% used for this period
- (2) Figures are based on the 2021-22 Asset Liability Management Study

Discount Rate

The discount rate used to measure the total pension liability for PERFC was 6.90 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the net pension liability for the Plan as of the measurement date, calculated using the discount rate for the Plan, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1%	Discount	1%	
	Decrease	se Rate		
	5.90% 6.90%		7.90%	
Miscellaneous Safety	\$ 2,334,721 3,264,596	\$ 559,818 853,140	(\$ 901,080) (1,118,397)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

NOTE 12: OTHER POSTEMPLOYMENT BENEFITS (OPEB)

A. General Information about the OPEB Plan

Plan Description

The City administers a single employer defined benefit healthcare plan. As of November 1, 2022, the City participates in the Fire Districts Association of California Employment Benefits Authority (FDAC EBA). There are three medical plans offered to employees and retirees: Basic EPO, Basic PPO, and Premium PPO.

Benefits Provided

Eligible employees who retired before July 1, 2017 are eligible for the PEMCHA minimum (\$157 per month in 2024). There are currently two retirees who are receiving these benefits.

Effective for retirements on or after July 1, 2017, the employee must self-pay the entire cost of premiums during retirement. Employees are eligible to remain on the City health plan if they retire directly from the City via service retirement or through industrial disability. There is no age or service requirement.

While the City does not directly contribute towards the cost of premiums for retirees except as noted for retirees receiving the 2024 PEMCHA minimum amount per month, premiums do not vary by age. Because actives and retirees under age 65 have the same premiums, there is an implicit subsidy realized, as the younger actives are subsidizing the costs of the older retirees.

Contributions

The obligation of the City to contribute to the plan is established and may be amended by the City Council. The contribution required to be made is based on a pay-as-you-go basis (i.e., as medical insurance premiums become due). No assets are accumulated in a trust that meets the criteria in Paragraph 4 of GASB Statement No. 75.

Employees Covered by Benefit Terms

At June 30, 2024, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	2
Active employees	12
Total	14

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 12: OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

B. Net OPEB Liability

The City's net OPEB liability of \$54,759 was measured as of June 30, 2024, and was determined by the actuarial valuation as of July 1, 2022.

Actuarial Assumptions and Other Inputs

The net OPEB liability in the July 1, 2022 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Valuation Date July 1, 2022

Measurement Date Last day of the current fiscal year (June 30, 2024)

Actuarial Cost Method Entry Age, level of percent of pay

Asset Valuation Method No assets held in irrevocable trust of measurement date

Discount Rate 3.97% as of June 30, 2024

Salary Increase 3.00% Inflation Rate 2.50%

Healthcare cost trend rates 5.50% for 2024, 5.25% for 2025-2029, 5.00% for 2030-2039, 4.75% for

2040-2049, 4.50% for 2050-2069 and 4.00% for 2070 and later years.

Mortality rates Postretirement mortality rates from 2000-2019 CalPERS experience

study

Actuarial assumptions used in the July 1, 2022 valuation were based on a review of plan experience during the period July 1, 2020 to June 30, 2022.

C. Changes in the Net OPEB Liability

The table below shows the changes in the total OPEB liability, the Plan fiduciary net position (i.e., fair value of the Plan assets), and the net OPEB liability during the measurement period ending on June 30, 2024 for the City's proportionate share.

	Increases (Decreases)					
	Plan					
	Total OPEB Liability (a)		Fiduciary Net Position (b)		Net OPEB Liability (a) – (b)	
Balances at fiscal year ending June 30, 2023	\$	52,621	\$	<u> </u>	\$	52,621
Changes during the period:						
Service cost		3,517		-		3,517
Interest cost		2,109		-		2,109
Difference between expected and actual experience	(442)		_	(442)
Contributions – employer		-		3,046	(3,046)
Benefit payments	(3,046)	(3,046)		
Net Changes		2,138		<u> </u>		2,138
Balances at fiscal year ending June 30, 2024	<u>\$</u>	54,759	\$		\$	54,759

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 12: OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

C. Changes in the Net OPEB Liability (Continued)

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the City, as well as what the City's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

	1%	Decrease	Cur	rent Rate	1%	Increase
		2.97%		3.97%		1.97%
Net OPEB liability	\$	58,968	\$	54,759	\$	50,977

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Trend Rates

The following presents the net OPEB liability of the City if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate:

	Cur	rent Trend			Curr	ent Trend
		- 1%	Curr	ent Trend		+1%
Net OPEB Liability	\$	49,292	\$	54,759	\$	61,181

D. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2024, the City recognized an OPEB credit of (\$428). At June 30, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		esources		Resources
Changes of assumptions Differences between expected and actual experience	\$	9,884 -	(\$ (7,941) 54,947)
Total	<u>\$</u>	9,884	(<u>\$</u>	62,888)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year Ended June 30		
2025	(\$	6,561)
2026		7,610)
2027	(7,603)
2028		7,403)
2029		5,663)
Thereafter	(18,164)
	(<u>\$</u>	53,004)

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 13: RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

There is no claims liability to be reported based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

There are no significant reductions in insurance coverage from prior years and there have been no settlements exceeding the insurance coverages for each of the past three fiscal years.

The City is a member of Northern California Cities Self Insurance Fund (NCCSIF), a joint powers agency which provides the City with a shared risk layer of coverage above the self-insured \$25,000 retention for liability and the self-insured \$100,000 retention for workers compensation. The NCCSIF is composed of 22 member cities and is governed by a board of directors appointed by the member cities. The governing board has authority over budgeting and financing. The City pays an annual premium to NCCSIF for its insurance coverage.

NCCSIF is a joint powers agency organized in accordance with Article 1, Chapter 5, Division 7, Title 1 of the California Government Code. The purpose is to create a common pool of funds to be used to meet obligations of the parties to provide workers' compensation benefits for their employees and to provide excess liability insurance. The Authority provides claims processing administrative services, risk management services, and actuarial studies. It is governed by a member from each city. The City of Willows council members do not have significant oversight responsibility, since they evenly share all factors of responsibility with the other cities. However, ultimate liability for payment of claims and insurance premiums resides with member cities. The Authority is empowered to make supplemental assessments as needed to eliminate deficit positions of member cities. If the JPA becomes insolvent, the City is responsible only to the extent of any deficiency in its equity balance.

Upon termination of the JPA agreement, all property of the Authority will vest in the respective parties which theretofore transferred, conveyed or leased said property to the Authority. Any surplus of funds will be returned to the parties in proportion to actual balances of each equity.

The Authority establishes claims liabilities based on estimates of the ultimate cost of claims (including future claims settlement expenses) that have been reported but not settled, plus estimates of claims that have been incurred but not reported. Because actual claims costs depend on various factors, the claims liabilities are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic and social factors. A provision of inflation is implicit in the calculation of estimated future claims costs. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

Notes to Basic Financial Statements For the Year Ended June 30, 2024

NOTE 13: RISK MANAGEMENT (CONTINUED)

The participants as of June 30, 2024 were as follows:

- Anderson
- Auburn
- Colusa
- Corning
- Dixon
- Elk Grove
- Folsom
- Galt
- Gridley
- Ione
- Jackson

- Lincoln
- Marysville
- Nevada City
- Oroville
- Paradise
- Placerville
- · Red Bluff
- Rio Vista
- Rocklin
- Willows
- Yuba City

The City's investment in NCCSIF of \$182,559 is recorded in the General fund. The net change is shown as an income or expense item in these funds.

NOTE 14: OTHER INFORMATION

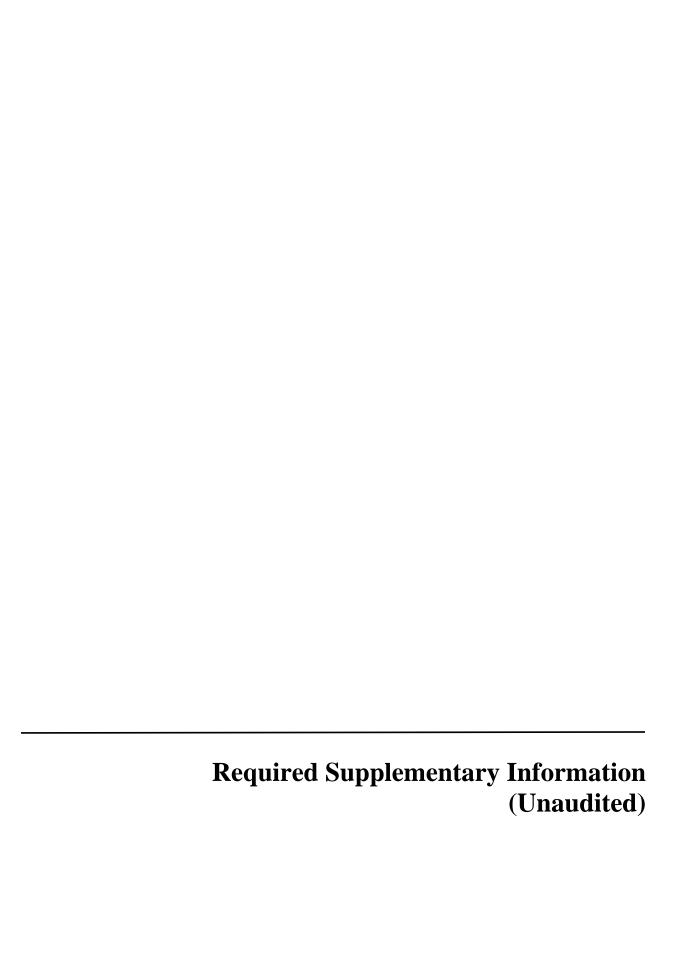

A. Commitments and Contingencies

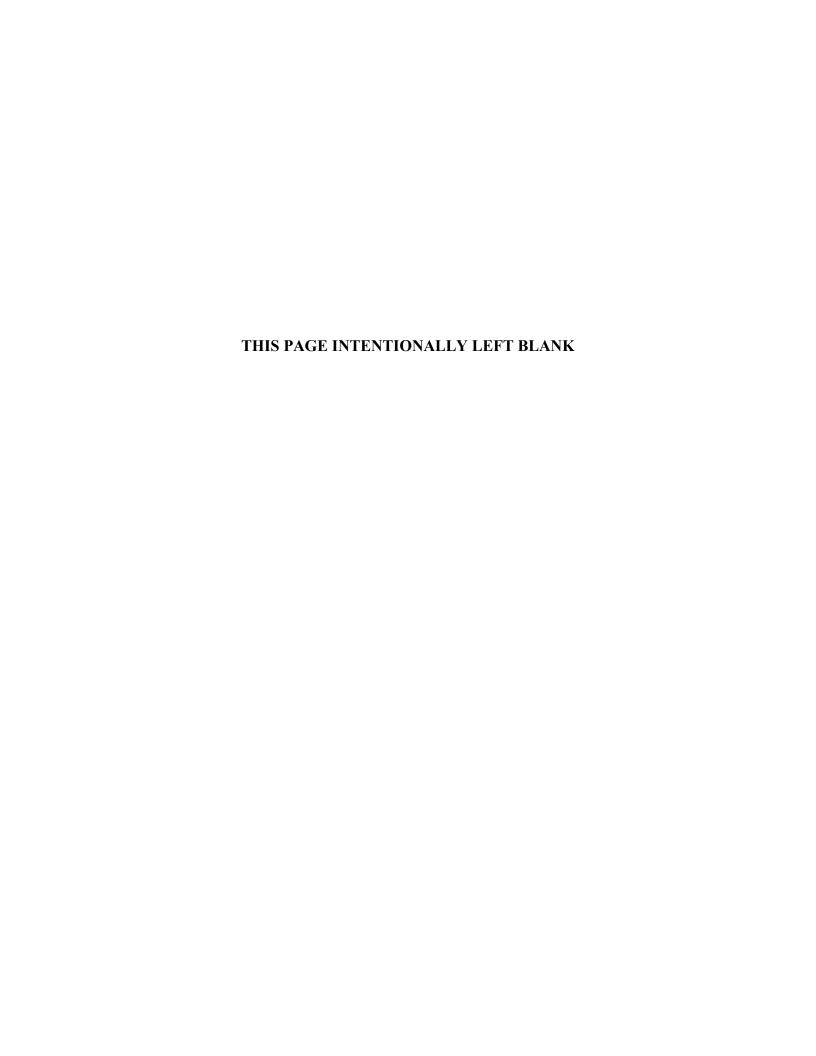

At June 30, 2024, the City had construction commitments outstanding of approximately \$920,670.

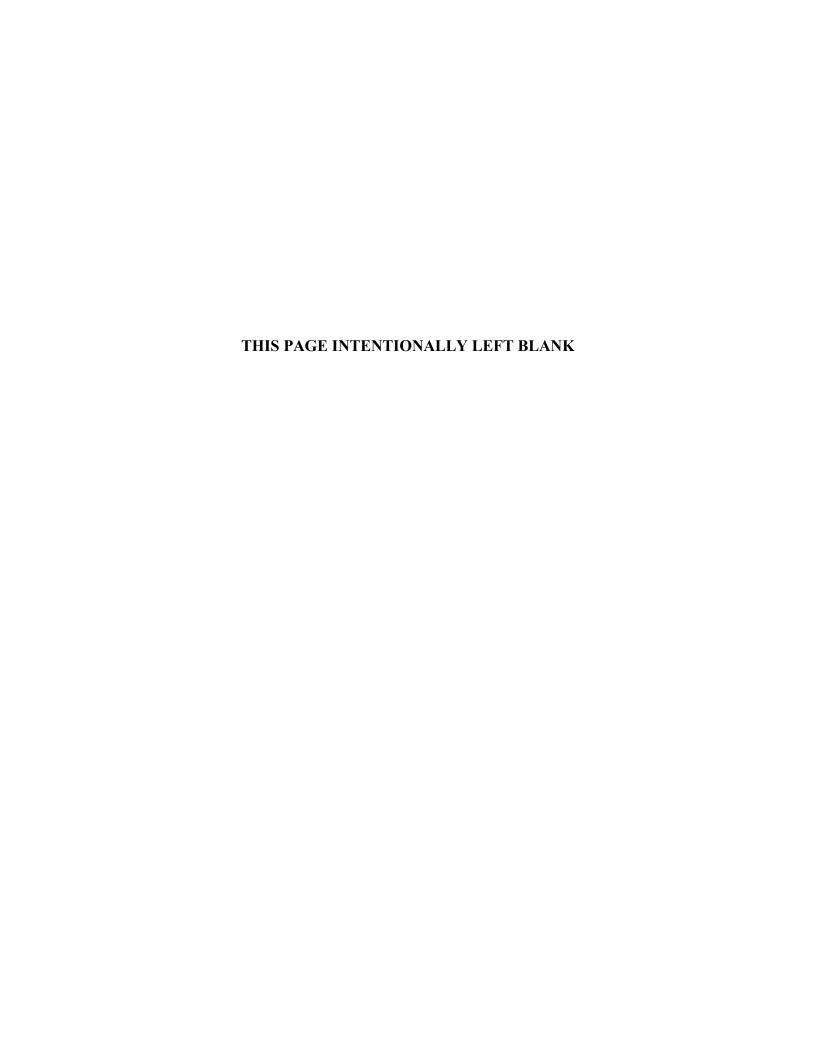

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the appreciable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

B. Subsequent Events

Management has evaluated events subsequent to June 30, 2024 through March 20, 2025, the date on which the financial statements were available for issuance. Management has determined no subsequent events requiring disclosure have occurred.

Required Supplementary Information Notes to Budgetary Comparison Schedule For the Year Ended June 30, 2024

NOTE 1: BUDGETARY BASIS OF ACCOUNTING

Formal budgetary integration is employed as a management control device during the year. The City presents a comparison of annual budget to actual results for the General fund and major special revenue funds. The amounts reported on the budgetary basis are generally on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).

The City follows these procedures annually in establishing the budgetary data reflected in the financial statements:

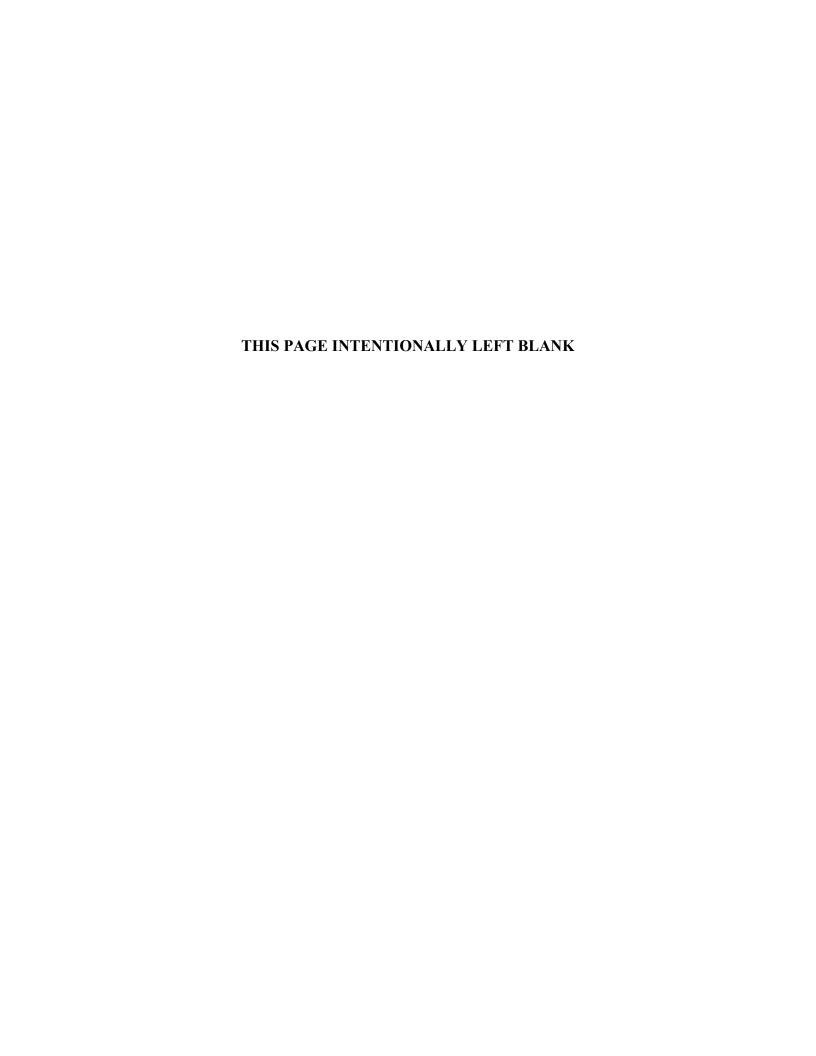

- (1) The City Manager submits to the City Council a recommended draft budget for the fiscal year commencing the following July 1. The budget includes recommended expenditures and the means of financing them.
- (2) The City Council reviews the recommended budget at regularly scheduled meetings, which are open to the public. The Council also conducts a public hearing on the recommended budget to obtain comments from interested persons.
- (3) Prior to July 1, the budget is adopted through the passage of a resolution.
- (4) From the effective date of the budget, which is adopted and controlled at the department level, the amounts stated therein, as recommended expenditures become appropriations to the various City departments. The City Council may amend the budget by motion during the fiscal year. The City Manager may authorize transfers from one object or purpose to another within the same department.

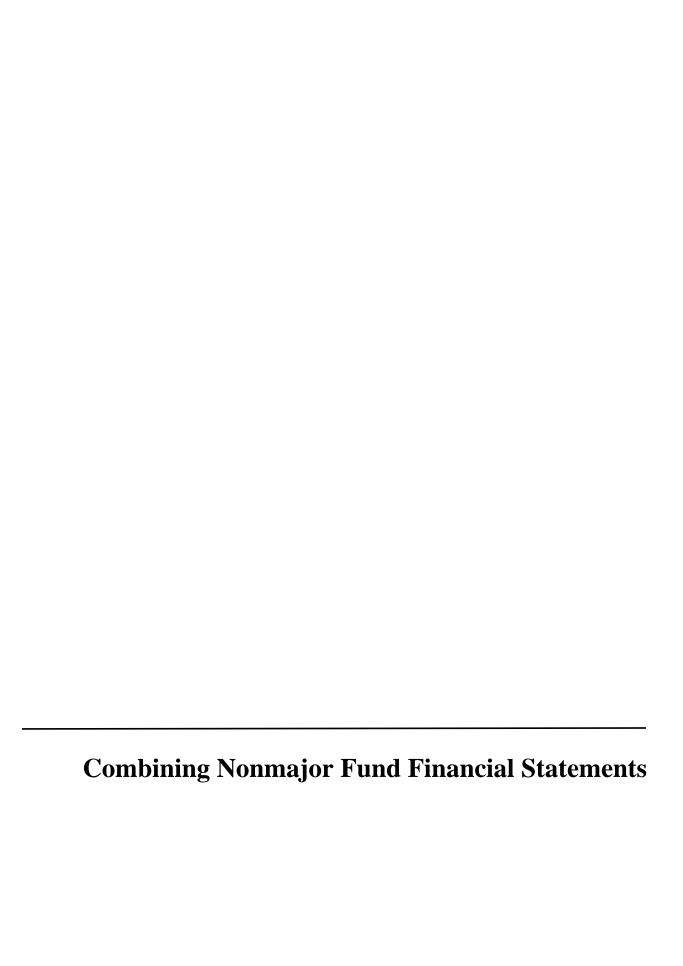

From the effective date of the budget, which is adopted and controlled at the department level, the amounts stated therein, as recommended expenditures become appropriations to the various City departments. The City Council may amend the budget by motion during the fiscal year. The City Manager may authorize transfers from one object or purpose to another within the same department.

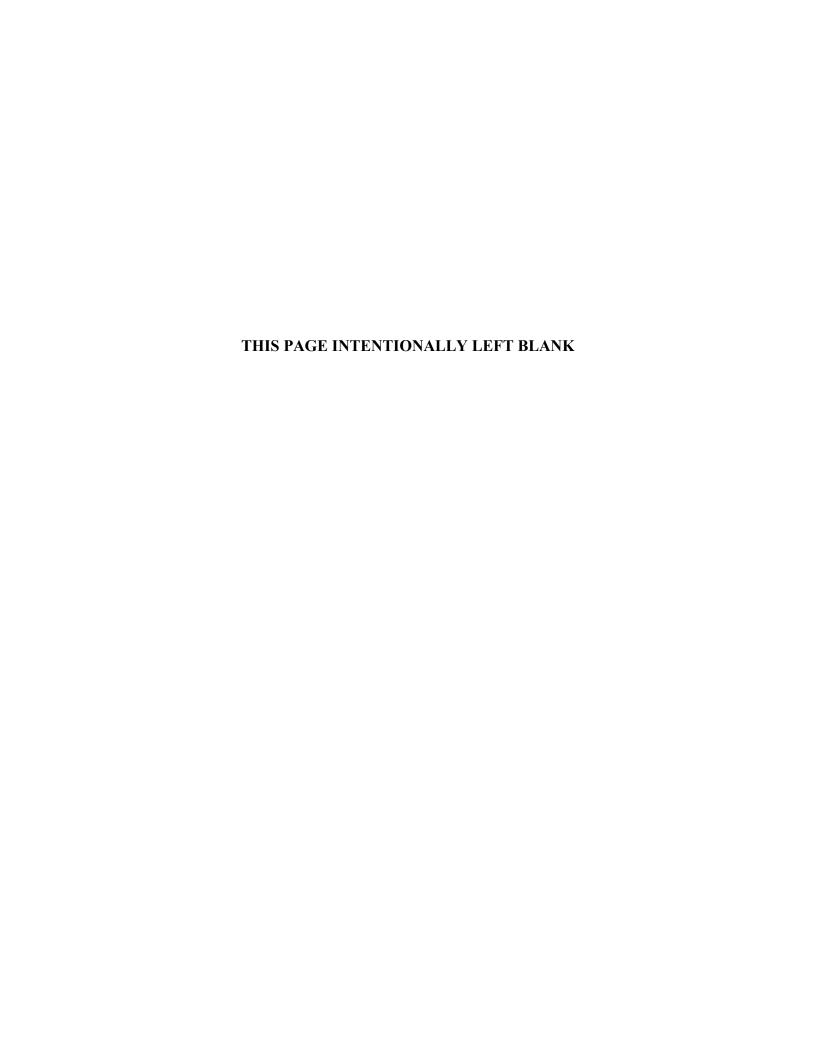

NOTE 2: EXPENDITURES IN EXCESS OF APPROPRIATIONS

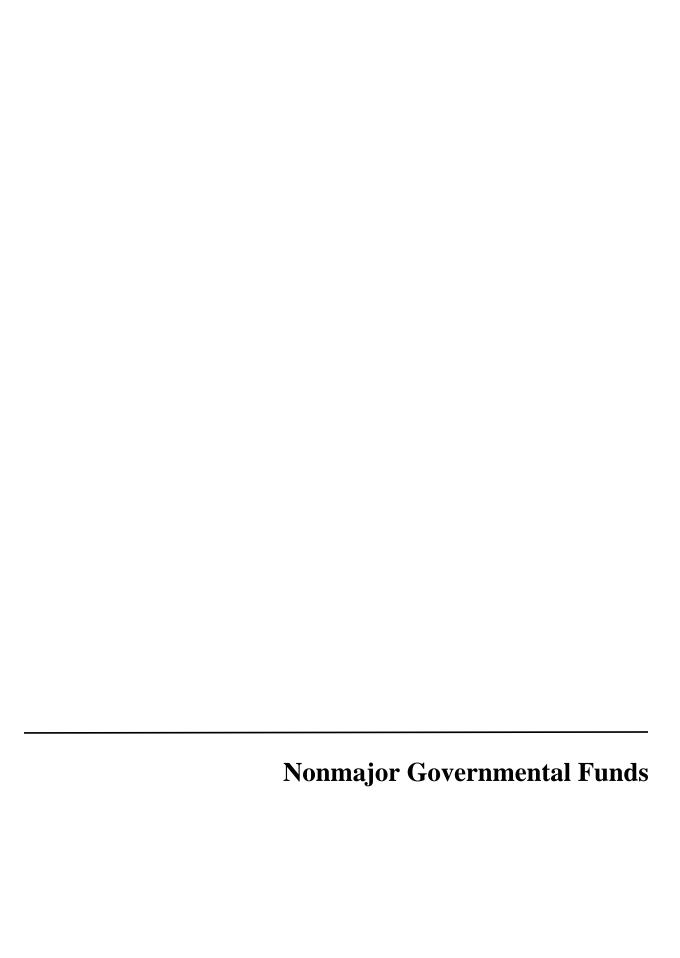

For the fiscal year ended June 30, 2024, the City incurred expenditures in excess of appropriations as follows:

			Excess of		
			Expenditures		
			Over		
	Appropriations	Expenditures	Appropriations		
COVID-19 Fisc Rec fund	\$ -	\$ 6,433	\$ 6,433
